DEQ_Comments-CDR_AppE_Treatment_System-05Apr12.pdf Gasco trt system design review comments 4Apr12.pdf

Hello Bob.

DEQ reviewed the "NW Natural Gas Company, NW Natural and Siltronic Wastewater Treatment System Design Report" dated January 2012 (Treatment System Design). EPA also reviewed the Treatment System Design. This e-mail provides soft copies of EPA and DEQ comments. A signed hard-copy of DEQ's letter with EPA's comments attached will be sent to you via regular mail this week.

The Treatment System Design is included as Appendix E in the Groundwater Source Control Construction Design Report (Construction Design) dated January 2012. Consistent with Step 1 of the framework for finalizing design and constructing the groundwater hydraulic control and containment system, DEQ is providing comments on the Treatment System Design separately from the Construction Design.

NW Natural requested DEQ's review comments on the treatment system by April 2, 2012 to facilitate ordering long-lead treatment equipment. The reviews completed by EPA and DEQ did not identify issues which would prevent NW Natural from ordering this equipment. NW Natural and Siltronic should review EPA and DEQ attached comments to confirm this is the case.

Please feel free to contact me with questions regarding this e-mail.
